Clarification of News Report

This refers to the news article entitled "Roxas sees flat income on lower output" posted in Manila Standard.net on April 11, 2018. The article reported in part that:

"Integrated sugar and ethanol producer Roxas Holdings Inc. expects a flat net income this year as higher sugar prices will be tempered by a 10-percent decline in production.

RHI president Hubert Tubio said in an interview after the annual stockholders' meeting sugar production would likely drop 8 percent to 10 percent this year from 3.46 million tons of cane on adverse weather conditions.

Tubio, however, said the production would be boosted by 400,000 bags of sugar inventory at the beginning of the fiscal year.

....

Dimarucut said RHI this year would allocate roughly P600 million in capital expenditures, significantly lower than the previous year's spending after completing the expansion programs of the sugar and ethanol plants.

...."

The above statements are confirmed to be fair and accurate and were made by the Company's President and CEO, Hubert D. Tubio, and EVP- Chief Finance Officer, Mr. Celso T. Dimarucut, in an interview conducted by the press immediately after the Annual Shareholders' Meeting held yesterday, April 11, 2018.

Further, the statement on sale of inventory at the beginning of the fiscal year thereby increasing revenues is substantially a reiteration of the Company's running performance for the current fiscal year 2017-2018 as disclosed to the public in its Press Release dated February 7, 2018.

For your guidance, please.
