1. Corporate Information

Roxas Holdings, Inc. (RHI or the Parent Company), doing business under the name and style of CADP Group, was organized in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on October 30, 1930 for the purpose of operating mill and refinery facilities to manufacture sugar and allied products.

In July 1996, the Parent Company offered its shares to the public through an initial public offering. On August 8, 1996, the shares of stock of the Parent Company were listed in the Philippine Stock Exchange (PSE).

On February 1, 2017, the Board of Directors (BOD) approved the issuance of convertible debt securities amounting to ₱523,750,000 to First Pacific Natural Resources Holdings, BV (FPNRH), convertible to 125,000,000 million common shares of RHI at the option of the holder and bears annual interest at 3%.

On February 15, 2017, the shareholders approved the amendment of the Parent Company's articles of incorporation to increase the authorized capital stock from ₱1,500,000,000 to ₱2,000,000,000 divided into 2,000,000,000 with par value of ₱1.00 per share. On the same day, the shareholders approved the subsequent application of the convertible note as subscription to 125,000,000 common shares arising from the increase in authorized capital stock at a conversion rate of ₱4.19 for every common share.

On July 14, 2017, the SEC approved the Parent Company's application for increase in authorized capital stock using the convertible debt securities as payment for subscription. Accordingly, FPNRH interest on the Parent Company increased from 27% to 32%.

The corporate office of the Parent Company is located at the 14th Floor, Net One Center, 26th cor. 3rd Avenue, Bonifacio Global City, Taguig, Metro Manila while the manufacturing plants of its operating subsidiaries are in Barrio Lumbangan, Nasugbu, Batangas and San Carlos Ecozone, San Carlos City, Negros Occidental.

The interim condensed consolidated financial statements of the Parent Company and its subsidiaries (collectively, the Group) for the nine-month period ended June 30, 2023 were authorized for issue in accordance with a resolution of the Board of Directors on August 4 2023.

2. Basis of Preparation and Basis of Consolidation

<u>Basis of Preparation</u>
The consolidated financial statements of the Group have been prepared on a historical cost basis, except for land and investment properties that are measured at fair value. The consolidated financial statements have been presented in Philippine Peso, which is the functional currency of the Group. All amounts are rounded to the nearest thousands, except for number of shares and unless otherwise indicated.

The interim condensed financial statements have been prepared in accordance with Philippine Accounting Standards (PAS) 34, Interim Financial Reporting.

The unaudited interim condensed financial statements do not include all the information and disclosures required in the annual audited financial statements and should be read in conjunction with the Company's annual audited financial statements as at and for the year ended September 30, 2022, which have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

Adoption of New and Revised PFRS
The Group adopted the following amendments and improvements to PFRS effective October 1, 2022 as summarized below.

Effective beginning on or after January 1, 2022 (October 1, 2022 for the Group)

- Amendments to PFRS 3, *Reference to the Conceptual Framework*

  The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3, *Business Combinations* to avoid the issue of potential 'day 2'gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets* or Philippine-IFRIC 21, *Levies*, if incurred separately.

  At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

  The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and apply prospectively.

- Amendments to PAS 16, *Plant and Equipment: Proceeds before Intended Use*

  The amendments prohibit entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

  The amendment is effective for annual reporting periods beginning on or after January 1, 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

- Amendments to PAS 37, *Onerous Contracts – Costs of Fulfilling a Contract*

  The amendments specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a "directly related cost approach". The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

- *Annual Improvements to PFRSs* 2018-2020 Cycle

  - Amendments to PFRS 1, *First-time Adoption of Philippines Financial Reporting Standards, Subsidiary as a first-time adopter*

    The amendment permits a subsidiary that elects to apply paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent's date of transition to PFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of PFRS 1.

    The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

  - Amendments to PFRS 9, *Financial Instruments*, *Fees in the '10 per cent' test for derecognition of financial liabilities*

    The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

    The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendments are not expected to have a material impact on the Group.

  - Amendments to PAS 41, *Agriculture, Taxation in fair value measurements*

    The amendment removes the requirement in paragraph 22 of PAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of PAS 41.

    An entity applies the amendment prospectively to fair value measurements on or after the beginning of the first annual reporting period beginning on or after January 1, 2022 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

Effective beginning on or after January 1, 2023 (October 1, 2023 for the Group)

- Amendments to PAS 12, *Deferred Tax related to Assets and Liabilities arising from a Single Transaction*

  The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

  The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense).

  An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023.

  The Group is currently assessing the impact of the amendments.

- Amendments to PAS 8, *Definition of Accounting Estimates*

  The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

  An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

- Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure of Accounting Policies*

  The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

  - Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies, and
  - Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures

  The amendments to the Practice Statement provide non-mandatory guidance. Meanwhile, the amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Early application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the Group.

Effective beginning on or after January 1, 2024 (October 1, 2023 for the Group)

- Amendments to PAS 1*, Classification of Liabilities as Current or Non-current*

  The amendments clarify paragraphs 69 to 76 of PAS 1, *Presentation of Financial Statements*, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

  - What is meant by a right to defer settlement
  - That a right to defer must exist at the end of the reporting period
  - That classification is unaffected by the likelihood that an entity will exercise its deferral right
  - That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

  The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

Effective beginning on or after January 1, 2025 (October 1, 2025 for the Group)

- PFRS 17, *Insurance Contracts*

  PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

  The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

  - A specific adaptation for contracts with direct participation features (the variable fee approach)
  - A simplified approach (the premium allocation approach) mainly for short-duration contracts

  On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

  PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

  The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

  On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

Basis of Consolidation

The consolidated financial statements include the financial statements of the Parent Company and its subsidiaries, which it controls as at September 30 of each year. The Parent Company has control over the investee when the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Presented below is the list of the subsidiaries.

7. **Property, Plant and Equipment**

Acquisitions and disposals
During the nine months ended June 30, 2023, the Group acquired assets amounting to ₱11.2 million excluding property under construction.

The Group also started several capital expenditures. The projects with carrying amount of ₱166.6 million are expected to be completed within a year.

Certain property, plant and equipment with a carrying amount of ₱8,067.1 million were mortgaged and used as collateral to secure the loan obligations with the local banks (see Note 9).

Assets Held for Sale and Discontinued Operations
On December 14, 2022, the Board of Directors approved and ratified the Management decision for permanent closure of CADPI's milling operations starting Crop Year 2022-2023. The assets held for sale represent CADPI's assets from its milling operations. Included in assets held for sale are CADPI's machinery and equipment amounting to ₱897.3 million.

On June 6, 2023, the Group proceeded to close the sale transaction, with the signing and delivery of the definitive sale agreements as well as performance of all conditions necessary for the closing of the transaction.

8. Short-term Borrowings

This account consists of unsecured short-term loans obtained from various local banks for working capital requirements of the Group. The short-term borrowings are payable within 30 to 90 days and bear interest ranging from 7.00% to 7.25% and 6.00% to 7.25% for the periods ended June 30, 2023 and September 30, 2022, respectively.

Total interest expense arising from short-term borrowings amounted to nil and ₱28.1 million for the nine-month periods ended June 30, 2023 and 2022, respectively.

The Group has no outstanding short-term borrowings as at June 30, 2023 and September 30, 2022.

9. Long-term Borrowings

The Group obtained various loans from local banks. Total outstanding payable arising from loan agreements are as follows:

Suretyship Agreement and Mortgage Trust Indenture
The Group entered into various suretyship agreements and MTI with local bank creditors that secure the Group's obligations in solidarity against all the properties of RHI and CADPI. Property, plant and equipment with a carrying amount of ₱8,067.1 million were mortgaged and used as collateral to secure the loan obligations with the local bank creditors.

Loan Covenants
The foregoing loan agreements are subject to certain covenants, such as but not limited to:
- maintenance of debt service coverage ratio (DSCR) of at least 1.10 times and debt-to-equity ratio of not more than 2.33:1 starting 2023;
- prohibition on purchase of additional equipment, except in pursuance of its sugar expansion and ethanol project, unless the required financial ratios are maintained;
- prohibition on any material change in ownership or control of its business or capital stock or in the composition of its top level management; and
- prohibition on declaration or payment of dividends or any other capital or other asset distribution to its stockholders, unless the required financial ratios are maintained.

As of June 30, 2023, the long-term loans are presented as part of current liabilities due to breach of DSCR loan covenant. The Company is currently in the process of securing waiver for the DSCR loan covenant requirement from the creditor bank.

The maturities of the long-term borrowings are as follows:

13. **Related Party Transactions and Balances**

In the normal course of business, the Group has transactions with related parties as follows:

a. The Group made advances to RHI Retirement Fund, Inc. (RHIRFI) and CADPI Retirement Fund, Inc. (CADPIRFI) for a portion of the retirement payments made to the Group's qualified retired employees under defined benefit plan. Advances to RHIRFI and CADPIRFI are netted under "Trade and other payables" account.

b. Due to related parties, which are presented as part of "Trade and other payables" account, represents noninterest-bearing payable arising from advances.

Outstanding balances of transactions with related parties are unsecured and settlements are made in cash. The Group did not recognize any provision for impairment for the nine-month periods ended June 30, 2023 and 2022. This assessment is undertaken each reporting period by reviewing the financial position of the related party and the market in which the related party operates.

19. **Financial Instruments**

Financial Risk Management Objectives and Policies
The Group's principal financial instruments comprise of cash in banks, trade and other receivables, and trade and other payables, which arise directly from its operations, and short and long-term borrowings.

The main risks arising from the Group's financial instruments are liquidity risk, credit risk and interest rate risk. The Group monitors the market price risk arising from all financial instruments. The Group's operations are also exposed to commodity price risk, particularly from sugar prices. Risk management is carried out by senior management under the guidance and direction of the BOD of the Parent Company.

Liquidity risk
Liquidity risk arises from the possibility that the Group may encounter difficulties in raising funds to meet maturing obligations.

The Group's objective is to maintain sufficient cash and cash in banks and the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the business, the Group aims to maintain flexibility in funding by keeping track of daily cash flows and maintaining committed credit lines available.

The tables below summarize the maturity profile of the Group's financial liabilities based on contractual undiscounted payments and the related financial assets used for liquidity management.

*****Liquidity position is expected to improve within the next 12 months as the Group is continuously in coordination with respective banks for the refinancing of short-term obligations for a minimum period of at least 3 years after September 30, 2022. Moreover, as part of Group's fund raising activities to settle currently maturing debts and operating liabilities, the Group will receive additional funding from one of its affiliates, which is convertible to capital.*

Credit risk

Credit risk is the risk that the Group incurs a loss because its customers, clients or counterparties failed to discharge their contractual obligation. To mitigate this risk, it is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures, which includes evaluation of the customers' financial standing and determination of allowable credit limit and credit terms. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry. The Group does not have significant concentrations of credit risk as the Group's customers and dealers are dispersed throughout the country.

To reduce the Group's exposure to bad debts, the Group took a conservative approach in its credit risk management. A policy has been developed to ensure that processes and risk-aversion are carefully observed to eliminate dealings with business entities that may pose collection issues in the future. This policy reinforces the Group's procedures for identifying and managing exposures to credit risk. Since the Group trades only with recognized third parties, there is no requirement for collateral.

With respect to credit risk arising from other financial assets of the Group which consist of cash, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. There are no collaterals or other credit enhancements held over these assets.

a. Risk concentrations of the maximum exposure to credit risk

   There is a significant concentration of credit risk within the Group given that the Group has limited creditors, stockholders and local banks.

   With respect to credit risk arising from the Group's financial assets, which comprise cash and receivables, the Group's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these instruments.

The Group's neither past due nor impaired receivables are high grade receivables which, based on experience, are highly collectible and exposure to bad debt is not significant.

As at June 30, 2023 and September 30, 2022, the age of the entire Group's past due but not impaired receivables is over 60 days.

Trade Receivables

The Group uses a provision matrix to calculate ECL for trade receivables. The provision rates are determined based on the Group's historical observed default rates analyzed in accordance to days past due by grouping of customers based on customer type and channels. The Group adjusts historical default rates to forward-looking default rate by determining the closely related economic factors affecting each customer segment. At each reporting date, the observed historical default rates are updated and changes in the forward-looking estimates are analyzed.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix as of June 30, 2023 and September 30, 2022.

c. Impairment analysis

For cash and cash equivalents, the Group applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are considered to be low credit risk investments. It is the Group's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group uses the ratings from the external credit rating agencies to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

For due from related parties, an impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by customer type or by payors). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, due from related parties are written-off if the account is at least one year past due and are deemed uncollectible after subjecting to all possible collection effort activities. No ECL was recognized on due from related parties as of June 30, 2023 and September 30, 2022.

Commodity price risk
The Group is exposed to commodity price risk from conventional physical sales and purchase of sugar managed through volume, timing and relationship strategies. The Group does not enter into commodity derivatives.

The Group's sales commitments are contracted at fixed prices, and thus have no impact on the consolidated cash flows in the next 12 months.

Interest rate risk
The primary source of the Group's interest rate risk relates to interest-bearing financial liabilities. The interest rates on these liabilities are disclosed in Notes 8 and 9.

The Group has no loans as at June 30, 2023 and September 30, 2022 that bear floating interest and expose the group to interest rate risk.

The other financial instruments of the Group are noninterest-bearing and are therefore not subject to interest rate risk.

<u>Capital Management</u>
The primary objective of the Group's capital management is to ensure that it maintains strong credit and healthy capital ratios in order to support its business and maximize shareholder value.

The Group's dividend declaration is dependent on availability of earnings and operating requirements. The Group manages its capital structure and makes adjustment to it, in light of changes in economic conditions. To maintain or adjust capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for the periods ended June 30, 2023 and September 30, 2022.

Management considers the total consolidated equity reflected in the consolidated statement of financial position as its capital. The Group monitors its use of capital using leverage ratios, specifically, debt-to-equity ratio.

Fair Values

The carrying amounts of the Group's financial assets and liabilities approximate their fair values due to their short-term nature or the interest rates that they carry approximate the interest rate on comparable instruments in the market. For the long term loans, these are subject to both fixed and floating rates.

The following methods and assumptions are used to estimate the fair value of each class of financial instruments.

Cash and cash equivalents, trade receivables, due to and from related parties, due from employees, other receivables, trade and other payables, short-term borrowings, current portion of long-term borrowings and dividends payable. The carrying amounts of these instruments approximate fair values due to their short-term maturities.

Long-term borrowings. Fair values of long-term borrowings as at June 30, 2023 and September 30, 2022 were determined based on Level 2 in which the inputs are based on the discounted interest rate of the prevailing comparable instrument in the market.

20. **Segment Reporting**

The Group has two reportable segments: sugar and alcohol. The Group's sugar segment consists of two operating subsidiaries: CADPI and RABDC that manufactures and sells raw and refined sugar, molasses and provides tolling and farm operations services. The alcohol segment consists of one operating subsidiary, SCBI, that manufactures and sells bioethanol fuel.

The Group has only one geographical segment as all of its assets are located in the Philippines. The Group operates and derives principally its revenue from domestic operations. Thus, geographical business information not required.

The Group's senior management regularly reviews the operating results of the business units to make decisions on resource allocation and assess performance. Segment revenue and segment expenses are measured in accordance with PFRS. The presentation and classification of segment revenue and segment expenses are consistent with the consolidated statements of income.

The following tables present information about the Group's operating segments:

(1) Net debt is derived by deducting cash and cash equivalents from total debt (short-term borrowings, convertible note and long-term debt, including current portion).
(2) EBITDA margin for the period is measured as EBITDA divided by revenues.

The Group’s financial performance is determined to a large extent by the following key results:

1. Raw sugar trading – a principal determinant of consolidated revenues and is computed as the gross amount of raw sugar purchased and sold by CADPI.

2. Refined sugar production – the most important determinant of revenues and computed as the gross volume of refined sugar produced by the CADPI refinery both as direct sales to industrial customers and traders or as tolling manufacturing service, limited by production capacity and by the ability of the Group to market its services to both types of customers.

3. Ethanol production – a measure of ethanol production yield compared to unit and cost of input and is computed as ethanol produced (in liters) from each ton of molasses undergoing distillation and dehydration processes.

4. Earnings before interest, taxes, depreciation and amortization (EBITDA) – the measure for cash income from operations and computed as the difference between revenues and cost of sales and operating and other expenses, but excluding finance charges from loans, income taxes and adding back allowances for depreciation and other non-cash amortization.

5. Return on equity – denotes the capability of the Group to generate returns on the shareholders’ funds computed as a percentage of net income to total equity.

Company Overview

Roxas Holdings, Inc. (RHI), a sugar and energy company, is the largest integrated sugar business and the biggest ethanol producer in the Philippines. The Company started operating as a sugar milling company in Nasugbu, Batangas in 1927 and was then known as Central Azucarera Don Pedro.

The Company’s subsidiaries include the following:

- Central Azucarera Don Pedro, Inc. (CADPI), located in Batangas, provides the refined sugar requirements of traders and industrial customers such as multinational food and beverage and pharmaceutical companies in Luzon. CADPI also manages and operates agricultural land and planting and cultivation of sugar cane and other farm products.

- San Carlos Bioenergy, Inc. (SCBI), located at San Carlos Ecozone, Barangay Palampas and Punao, San Carlos City, Negros Occidental, operates integrated sugar mill and bioethanol distillery complex.

Results of Operations

Others	**7**	58	(51)	(88%)
	₱6,054	₱6,128	(74)	(1%)

Consolidated revenues for the nine months ended June 30, 2023 amounted to ₱6,054.4 million, ₱73.7 million or 1% lower than the ₱6,128.1 million consolidated revenues reported in the same period in 2022, primarily due to the decreased refinery operations in spite of the raw sugar trading operations occurred this year.

Sugar – Revenue from sugar operations decreased by ₱136 million or 3% against last year's revenue of ₱4,465.9 million due to decreased refinery operations output. Refined sugar sales volume decreased by 942 Lkg or 60% versus last year's sales volume of 1,574 Lkg.

Alcohol – Revenue from alcohol operations amounted to ₱1,717.8 million and ₱1,604.5 million in 2023 and 2022, respectively. The increase of ₱113.3 million despite the decrease in alcohol production volume is due to higher average selling prices of both alcohol and sugar syrup.

Other income – Other revenues pertains to sale of power and CO_2 of SCBI and sale of sugar cane and farm services of ADC.

Gross Profit

The gross loss of the Group for the nine months ended June 30, 2023 amounting to ₱386.1 million is ₱394.7 million or 4,589% lower than the ₱8.6 million profit in 2022. The decrease in gross profit is attributable to intermittent production operations and low production volume due to limited supply of raw sugar and molasses.

Sugar – The sugar operation's gross loss of ₱254.7 million is lower by ₱328.3 million from ₱73.6 million gross profit reported in the same period in 2022 primarily due to intermittent refinery operations and low production volume due to limited supply of raw sugar.

Alcohol – The gross loss of alcohol for the nine months ended June 30, 2023 is ₱64.7 million lower from ₱65.0 million gross loss in the same period in 2022. Ethanol production for the nine months ended June 30, 2023 decreased by 5.1 million liters or 21.9% from 23.1 million liters production in 2022.

Consolidated operating expenses for the nine months ended June 30, 2023 decreased by ₱12.7 million or 3% compared to the same period in 2022.

Interest

Interest expense amounted to ₱301 million for the nine months ended June 30, 2023, which is 26% or ₱61.9 million higher than the ₱239.1 million reported in the same period in 2022, due to higher interest rates and interest expense recognized from convertible note issuance.

Net Loss

Consolidated net loss for the nine months ended June 30, 2023 amounted to ₱975 million, which is ₱379.2 million lower than the ₱595.7 million net loss reported in the same period in 2022. Consequently, loss per share is ₱0.63 and ₱0.38 for the nine months ended June 30, 2023 and 2022, respectively.

EBITDA

EBITDA for the nine months ended June 30, 2023 is lower by ₱397.4 million or 16,371% than ₱2.4 million losses reported in the same period in 2022.

Financial Condition

Consolidated total assets as at June 30, 2023 amounted to ₱13,428.2 million, which is ₱1,490.4 million lower than the ₱14,918.6 million as at September 30, 2022. Current assets decreased by ₱534.9 million from ₱1,907.5 million as at September 30, 2022 to ₱1,372.7 million as at June 30, 2023. Receivables decreased by ₱128.1 million and inventories decreased by ₱387.3 million as a result of decreased production in 2023.

During the nine months ended June 30, 2023, the Group made payments for the principal of its long-term borrowings amounting to ₱178.3 million.

Trade and other payables amounted to ₱2,522.9 million as at June 30, 2023, which is ₱270.5 million lower than ₱2,793.4 million as at September 30, 2022.

Off-Balance Sheet Arrangements

The Group is not aware of any material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships with unconsolidated entities or other persons created during the reporting period.
